

## METTAG™ DATASHEET

MANUFACTURER: THE AMERICAN CIVIL DEFENSE ASSOCIATION (TACDA)  
LOCATION: SANDY, UTAH, USA  
BRAND: METTAG™ - OWNED BY THE AMERICAN CIVIL DEFENSE ASSOCIATION  
PRODUCT NUMBER: MT-137  
PRODUCT NAME: GLOBAL USE MEDICAL EMERGENCY TRIAGE TAG  
WEIGHT: 13OZ PER PACK OF 50  
DIMENSIONS: 8.25 X 4"  
PACKAGE: SHRINK WRAPPED IN 50'S, 20 PACKS TO A CASE  
DESCRIPTION: The Original MT-137 Medical Emergency Triage Tag is constructed of a high-density damage resistant synthetic material, and is printed using a special thermal printing process, allowing use in the harshest and most demanding field situations. Additionally, each Medical Emergency Triage Tag is equipped with a 30-inch elastic band, which is used for attaching the tag to the victim's body, usually around the neck or to an available limb.

Each MT-137 is coded with a unique sequential barcode serial number, which aids in the identification and tracking of victims and their belongings through the various phases of the triage and treatment processes, both in the field, as well as into the receiving hospital emergency care facilities. These unique serial numbers are conveniently located on both the top right and top left diagonal tear-offs, as well as on the lower color coded tear-offs.
